Petrino Qasolli

Date of birth: 30/03/1996 | **Nationality:** Albanian | **Gender:** Male | **Phone number:** (+355) 694537908 (Mobile)

Email address: petrinotino@gmail.com | **LinkedIn:** https://www.linkedin.com/in/petrino-qasolli-703806290/

Address: Rr.Ali Kolonja, 1001, Tirana, Albania (Home)

● ABOUT ME

During my studies, I gained deep knowledge in Computer Engineering. I also developed strong communication and cooperation skills through various engagements. During this time, I demonstrated a continuous commitment to personal growth and professionalism, preparing me to contribute to new challenges in a working environment.

● DIGITAL SKILLS (Software Developer)

HTML5 | CSS3 | JavaScript | Bootstrap | Tailwind | jQuery | React | Git | GitHub | ES6 | Node.js | Express.js | API | SQL | PostgreSQL | DApp | PHP | Angular| Adobe Photoshop | RegEx | X-Path| Web Design | JAVA | Spring | JAVA Fundaments |JAVA-Advanced | Software Testing | Databases-SQL | JDBC & Hibernate | Design Patterns | Adept in diverse technologies.

● WORK and EXPERIENCE

SDA Academy Bootcamp: Java

I successfully completed the Java Full-Stack Developer Bootcamp at SDA Albania, where I deepened my knowledge in Java and related technologies like Spring and Hibernate. The program included advanced skill development in building secure and robust backend applications, utilizing Spring for dependency management, quality control, and database integration. This hands-on training prepared me for full Java projects and complete backend development applications.

Backend Developer 2RM lab

Tirana, Albania On-site

At 2rnlab, I develop and maintain secure and scalable backend systems, ensuring high performance and reliability. My role involves designing APIs, optimizing databases, and collaborating with cross-functional teams to deliver robust software solutions.Enhanced system performance and contributed to delivering secure, high-quality software solutions.

Software Developer focus on (Frontend Developer) at Elite Station

Duration: Jul 2023 – Jul 2024 (1 year)
Location: Tirana, Albania (On-site)
At Elite Station, I worked as a **Full Stack Developer** with a strong emphasis on **Frontend development,** combining in-depth frontend skills with backend capabilities. My role involved collaborating closely with design and development teams to deliver modern and responsive web solutions.
- **Key Responsibilities:** Web Design & Development: Developed and implemented user-friendly, responsive web pages using HTML, CSS, and JavaScript.
- **Backend Integration:** Utilized Node.js, NPM, and Express.js for server-side development and API integration, enhancing website functionality.

Frontend Web Developer Elite Station · Internship

Internship: Dec 2022 - Mar 2023 ·

Tirana, Albania · On-site

At Elite Station, I specialized in frontend development, focusing on creating high-quality web pages with a strong emphasis on user experience and modern design principles. The work environment was highly collaborative and quality-oriented, providing opportunities to develop innovative and successful projects.

Nam Business Lounge

Duration: Jun 2022 – Aug 2022 (3 months)
Location: Tirana, Albania (On-site)

Website: https://namlounge.netlify.app/

Developed a comprehensive website for NAM Lounge, a modern lounge bar, utilizing a range of web technologies. The project involved creating an engaging online presence for the bar, focusing on delivering an optimal user experience through a well-structured and visually appealing design.

Parking Management System -JAVA

Project: Parking Management System https://github.com/PetrinoTino/Parking-Ticket-Management

Developed a comprehensive parking management system using Java SE, demonstrating advanced programming and system design skills.

Key aspects include:
- Implemented a full-fledged Java application using Object-Oriented Programming (OOP) principles
- Utilized JDBC for MySQL database connectivity and management
- Designed a layered architecture separating business logic, data access, and user interface
- Developed CRUD operations for core system entities
- Created a dynamic pricing system based on parking duration
- Implemented exception handling for robust error management
- Utilized Java collections for in-memory data management
- Developed a console-based user interface

Technologies and concepts:
- Java SE
- JDBC (Java Database Connectivity)
- MySQL
- OOP (Object-Oriented Programming)
- DAO (Data Access Object) pattern
- Database transaction management
- Java time API for date and time handling
- Console I/O operations

Fruit and Vegetables Shop

Duration: Jan 2021 – Mar 2021 (3 months)
Location: Tirana, Albania (On-site)

Website: porodinafrutaperime.com

Developed an e-commerce website for Porodina Fruta Perime, a fruit and vegetable shop, with a focus on creating an engaging and user-friendly online store with a modern, responsive design.
- **Design:** Crafted a clean, user-friendly layout that effectively showcases products and facilitates easy navigation.
- Responsive**s:** Ensured the website is fully functional and visually appealing across all devices and screen sizes.

Meat Processing Factory (Sallameri TANKA)

Duration: Jan 2021 – Mar 2021 (3 months)
Location: Tirana, Albania (On-site)

Website: sallameritanka.com

Developed a professional website for Sallameri TANKA, a meat factory, focusing on creating an informative and engaging online presence with a modern and responsive design.

- **Design:** Developed a clean, professional layout that reflects the company's brand and industry.
- **Responsiveness:** Ensured the site performs well and looks appealing across all devices and screen sizes.
- **Functionality:** Implemented features to provide users with comprehensive information about the company's products and services.
